

# Data Structures and analysis of algorithms

Abhishek Raj

July 8, 2018

## 1 Introduction

Creating nice pseudocode algorithms.

### 1.1 My Algorithm

Did you learn L<sup>A</sup>T<sub>E</sub>X?

```
if learned  $\geq$  sortof then  
    okay  $\leftarrow$  true  
else  
    while !okay do  
        repeat course  
        okay = learned  $\geq$  sortof  
    end while  
end if
```

## 2 Conclusion

There is brief introduction, I'll update as we learned further.
