Basic LATEXformatting

Abhishek Raj

July 6, 2018

1 Introduction

All the things you want to do, and sometimes should .. emphasis on sometimes.

Bold Formatting is only between the curly braces. *Italics Formattting* <u>Underline Formatting</u>

1.1 Paragraph Formatting

New paragraphs are automatically indented.
But sometimes you don't want them to be.

2 Oddities

This is how I would normally type 'single' and "double" quotes. Doesn't it look good?

I am talking about 'single' and "double" quotes.

3 Conclusion

We have learnt about formatting here.
